

Breakfast

with our landcare elders

exploring our future together

what do we need to let go of?

- self doubt
- the belief that the world is awful and getting worse
- top down control
- rushing
- burn-out
- business as usual
- trying to 'fix' community & landscapes - can make it worse!
- silos!
- the spread of misinformation
- the rigidity of landscape restoration, landscapes aren't what they once were...
- guilt about what has happened in the past
- egos
- the notion we are powerless
- competitiveness

what do we need to embrace?

- landcare's value to community & personal wellbeing
- look at & listen to country
- see & appreciate the beauty
- human connections
- share stories
- support more young people
- abundance mentality, share resources
- slow down
- living generously
- power of community
- take responsibility for how we behave in a crisis
- embrace & respect diversity
- embodying the change not just saying it
- dangerous narratives & misinformation stops with us
- less rows
- more circles
- deeper listening
- collaborative dissent
- all generations working together
- we are family :)
